About me

An ambitious and motivated automatic control student with good communication skills in English with the capacity to work with a team. Having knowledge in Java, SQL, C and C++ looking for a job to develop my skills and help the company to grow.

Education

Polytechnic University, Bucharest

2019-present

Faculty of Automatic Control and Computer Science

“Constantin Brâncoveanu” High School, Horezu

2015-2019

Computer Skills

Languages: Java, SQL, C, C++

Other: Linux, Git, Github

Tools: Visual Studio Code, IntelliJ IDEA, Eclipse

Work Experience

Volunteer at LSAC Bucharest

2019-2020

I was a member of the Design Department of LSAC Bucharest. We used to make covers and posters for the events.

Projects

Laptop Shop

2022

Build a Java Application in Eclipse for an online laptop shop using Java Swing for the graphical interface. I created the database in Microsoft SQL Server and I implemented a variety of features.

Cinema Database

2021

Administration of a cinema using Java and SQL. I implemented the application using MVC design pattern and SOLID design principles.

Certifications

Java 1 Professional (Telecom Academy)

October 2021

Java 1 Associate (Telecom Academy)

March 2021
